Thanks Scott. I should be around tomorrow in between school drop offs, pick-ups, etc. My understanding is that this was reported to a carrier close in time to the event. I am confirming with the Client. We served a follow up formal demand during the first week in February, and were wondering why we did not received a response. We therefore filed suit to protect the SOL. In any event, let me know when you want to schedule. I am around most of the week other than this afternoon. I believe all witnesses are still in the area.

Best Regards,

MWM

Subject: Salvage Case - MY WHAT HURTS

Dear Mike,

I hope you are doing well.

I am writing with respect to your letter regarding the above referenced vessel related to an alleged salvage from 2021.

I suspect as you can imagine the surprise in receiving your letter related to an incident that is now over two years old.

Are you available to get on a call tomorrow to discuss because we are really in what appears to be a real bind related to factual investigations and possible insurance issues due to the extremely late nature of making this claim?

As far as I know, the Owners had not heard anything from your client until this letter surfaced many years later.

Please let me know.

All the best,
Scott
